

IGET BAR PLUS POD

Product Features

[Infographic]

1

Compact and Portable:

The IGET Bar Plus Pod is designed to be sleek, lightweight, and easy to carry. Its small size makes it perfect for vaping while on the go.

2

All-in-One Design:

The device features an all-in-one design, which means that the e-liquid, battery, and atomizer are integrated into a single unit. There is no need for refilling or replacing coils.

3

Large E-liquid Capacity:

The IGET Bar Plus Pod comes with a relatively large e-liquid capacity, allowing for long-lasting vaping sessions without the need for frequent refills.

4

Disposable and Maintenance-Free:

This device is designed to be disposable, meaning that once the e-liquid is depleted or the battery life is exhausted, you can simply dispose of the device and replace it with a new one. Maintenance and cleaning are not required.

5

User-Friendly Operation:

The IGET Bar Plus Pod is draw-activated, which means that there are no buttons or complicated settings to navigate. All you have to do is breathe into the mouthpiece to start the automated vaporization process.
