

Why a Laboratory Analytical Balance Is Essential for Accurate Scientific Results!

Ningbo, China, Oct 6, 2025 – Ningbo Develo Precision Mac Co., Ltd is proud to announce the launch of its latest product, the **Laboratory Analytical Balance**, which marks a new milestone in precision weighing technology for laboratories, research centres, and quality-control departments worldwide.

This advanced [Laboratory Analytical Balance](#) has been engineered to meet the demanding requirements of modern analytical work. With exceptional readability, multiple weighing units, full-range tare, remote display capability, and optional RS-232 interface for computer or printer connectivity, it provides an ideal solution for labs seeking accuracy, reliability, and efficiency.

Key Features and Benefits:

- **High resolution:** reading down to 0.001 g in several models (110 g to 310 g capacity) and 0.01 g accuracy for higher capacities up to 3100 g.
- **Extensive functionality:** supports 18 units, including g, ct, lb, tola, oz, ozt, GN, dwt; offers zero tracking, low battery indicator, overload protection, automatic calibration, and calibration point selection.

- **Durable build:** aluminium base, stainless steel weighing plate, and protective glass windshield that ensures stable operation even in variable lab environments.
- **Flexible connectivity:** optional RS-232 port allows data export to PC or printer, enabling seamless integration with lab information management systems (LIMS). Remote display and under-hook weighing add further versatility.
- **Multi-capacity range:** Models from 110 g to 3100 g, with fine readability, allow a single product family to serve a variety of analytical applications.

Industry Impact

For laboratories engaged in pharmaceutical research, chemical analysis, academic investigations, or quality assurance, the launch of this [Laboratory Analytical Balance](#) offers significant advantages. Its precision ensures accurate measurement of small masses, while its robust design and optional connectivity facilitate workflow automation and data integrity. By offering this product, **Ningbo Develo Precision Mac Co., Ltd** strengthens its position as a full-service provider of precision weighing solutions.

About Ningbo Develo Precision Mac Co., Ltd

[Ningbo Develo Precision Mac Co., Ltd](#) is a recognised manufacturer of precision weighing instruments, including laboratory balances, precision balances, and platform scales. With a commitment to innovation, quality, and service, the company supplies equipment to clients worldwide, supporting scientific, industrial, and commercial sectors.
