

Long Hung Titanium Announces Advanced Expansion as a Leading Precision Parts Manufacturing Company

Shen Zhen Long Hung Titanium Ltd., a global leader recognized for high-tolerance metal machining, today officially announced the expansion of its state-of-the-art production lines, reinforcing its position as a trusted [precision parts manufacturing company](#) serving mission-critical industries worldwide.

“Across aerospace, medical devices, automotive engineering, and industrial automation, companies rely on quality, consistency, and absolute precision,” said **Mr. Chang Liu, Managing Director of Shen Zhen Long Hung Titanium Ltd.** “Our latest manufacturing upgrades enable us to deliver even tighter tolerances, faster lead times, and unmatched reliability. This investment ensures our customers remain competitive in fast-evolving global markets.”

Innovation Across Key Industry Segments

As an internationally certified [precision parts manufacturing company](#), Shen Zhen Long Hung Titanium Ltd. specializes in several high-growth application categories, including:

- **Aerospace Titanium Components:** Lightweight structural parts engineered for extreme performance and durability.
- **Custom Medical Device Parts:** Biocompatible titanium components supporting surgical tools, implants, and laboratory instruments.
- **Industrial Machinery Parts:** High-strength and wear-resistant components for complex assemblies and automated systems.
- **Electronics & Semiconductor Fittings:** Precision-cut micro components for ultra-fine, high-efficiency electronic production lines.
- **Automotive Lightweighting Components:** Engineered metal parts enabling next-generation mobility and energy efficiency.

Each product undergoes strict quality validation using advanced metrology equipment, ensuring compliance with ISO international standards and industry-specific specifications.

About Shen Zhen Long Hung Titanium Ltd.

[Shen Zhen Long Hung Titanium Ltd.](http://www.longhungti.com) is a globally recognized **precision parts manufacturing company** specializing in titanium, alloy steel, stainless steel, and custom-engineered components. With advanced machining technology, strict quality systems, and an expert engineering team, the company delivers high-precision parts to aerospace, medical, industrial, automotive, and high-tech electronics sectors worldwide.
