

Tyre Safety

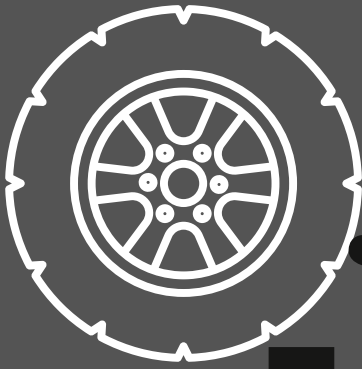

Checklist

Keep yourself and other road users safe by driving with legal tyres.

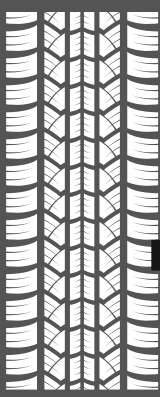

1 in 5 motorway breakdowns are due to incorrectly inflated tyres.

TYRE SAFETY

CHECKLIST

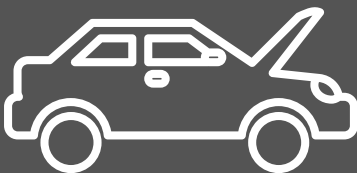

TREAD DEPTH

Legal tyres must have a minimum tread depth of 1.6mm.

AIR PRESSURE

Check tyre air pressure when your tyres are cold. They should be at the recommended PSI.

WEAR & TEAR

Replace tyres if you find cracks, cuts or bulges. Remove stones stuck in the tyre.

Lawson AutoTech supplies and fits a wide range of new car tyres.
