## International Removals Guide

This guide, from the international removals experts at Constantine Scotland is intended to help make your international relocation easier.

## Early Planning is Key

Start planning your move well in advance. We recommend at least 3 to 6 months.

Create a checklist that lists everything you need to do and when. Our [International Removals Checklist](#) can be a useful starting point.

## Research Your Destination

Not only is it important to familiarise yourself with the local customs, culture and regulations of your new country, but you also need to ensure you have the necessary paperwork to live and work there.

Research visa and residency requirements for your destination country and ensure all necessary paperwork is in order. You can usually check this via the government website of the country you are moving to.

## Choose an International Removals Company

When moving abroad, it is essential to choose a removal company that specialises in international removals as they will have the experience of dealing with customs and overseas removal options.

A respected company, such as Constantine Scotland, gives you a wealth of experience in international relocations and comprehensive door-to-door services. Their services include professional packing, a range of transport methods, comprehensive insurance and customs coordination.

## Declutter, Organise & Pack

International moves are an excellent opportunity to declutter and minimise your belongings. Consider breaking down your items into three categories: items you will need, items you may want to store, and items you can sell or donate. Our [secure storage facility](#) is the ideal place to store your valuables in the long or short term.

Remember to keep important documents such as passports, visas, and medical records in a secure and easily accessible location.

Clearly label each box with its contents and destination room to streamline the unpacking process. Ensure you will be able to find everything you will need during the first few weeks.

## Handle Customs Regulations

Understanding and complying with customs regulations is essential to avoiding delays and complications at your destination. Constantine Scotland's customs coordinators will handle all customs documentation and clearance processes, ensuring compliance wherever you are relocating.

## Notify Relevant Parties of your Relocation

Notify friends, schools, utility providers, banks and government agencies of your move.

Arrange for your mail to be forwarded to your new address.

## Removal Insurance

Ensure you have adequate insurance for the move. You may have to organise this yourself or your removal company may do it for you.

At Constantine Scotland, we offer comprehensive removals insurance coverage.

## Enjoy your New Home

At Constantine Scotland, we offer international removals to many countries worldwide:

- European Removals
- Removals to the USA & Canada
- Removals to Australia & New Zealand
- Removals Worldwide
