

# Palms Resources Pte Ltd Announces New Non-GMO Refined Glycerine 99.7 USP K H:

[Non gmo glycerine | palms resources](#) - Saturday, August 17, 2024.

Submitted by: [Palms Resources](#)

---

[Palms Resources Pte Ltd](#), a prominent leader in the chemicals and ingredients sector, is thrilled to unveil its latest innovation, [Non-GMO Refined Glycerine](#) 99.7 USP K H. This groundbreaking product represents a significant advancement in purity and sustainability, designed to elevate industry standards and meet the growing demand for high-quality, non-GMO ingredients.

In a world where purity and sustainability are increasingly critical, Palms Resources Pte Ltd is proud to introduce its Non-GMO Refined Glycerine 99.7 USP K H. This high-purity glycerine, with a remarkable 99.7% purity level, adheres to the strictest USP standards, ensuring exceptional quality and reliability across various applications.

## A Leap Forward in Purity and Sustainability

Palms Resources Pte Ltd has always been committed to delivering products that not only meet but exceed industry expectations. With the introduction of [Non-GMO Refined Glycerine](#) 99.7 USP K H, the company continues this tradition, offering a product that addresses the increasing consumer and industry demand for non-GMO and environmentally responsible solutions.

This advanced glycerine is refined to the highest purity level, making it a valuable ingredient for a range of applications including cosmetics, pharmaceuticals, and industrial processes. Its non-GMO formulation reflects Palms Resources' dedication to environmental sustainability and ethical sourcing practices.

The product's release is expected to impact various sectors by providing a high-quality, versatile ingredient that supports both functional and sustainable practices. This launch marks a pivotal moment for Palms Resources, underscoring its role as a forward-thinking leader in the industry.

## Unveiling a New Standard in Glycerine Quality

### Key Features of Non-GMO Refined Glycerine 99.7 USP K H:

- **High Purity:** Achieves a 99.7% purity level, compliant with stringent USP standards.
- **Non-GMO:** Sourced and processed to meet non-GMO certification requirements.
- **Versatile Applications:** Suitable for use in a wide range of industries, including pharmaceuticals, cosmetics, and industrial manufacturing.

"This introduction of [Non-GMO Refined Glycerine](#) 99.7 USP K H represents a major milestone for Palms Resources," said Mr. Sovakar Nayak. "We are excited to bring a product that not only upholds the highest standards of purity but also aligns with our commitment to sustainability and ethical sourcing. We believe this product will set a new benchmark in the industry and offer significant value to our customers."

[Palms Resources Pte Ltd](#) has a long-standing reputation for innovation and quality in the chemicals and ingredients sector. The company's dedication to meeting and exceeding industry standards has made it a trusted partner for clients seeking high-quality and reliable products.

## Elevating Industry Standards with Innovation

The introduction of Non-GMO Refined Glycerine 99.7 USP K H is a testament to Palms Resources' ongoing commitment to advancing industry standards and providing exceptional products. This new glycerine product is designed to meet the diverse needs of its customers while supporting environmentally friendly practices and promoting sustainability.

## A Commitment to Excellence and Sustainability

With this latest release, Palms Resources Pte Ltd continues to demonstrate its leadership in the industry, delivering innovative solutions that meet the evolving needs of its clients. The company's focus on high-quality, non-GMO products ensures that customers receive the best possible ingredients for their applications.

## Transforming the Future of Glycerine Production

As the industry moves towards greater sustainability and higher purity standards, Palms Resources Pte Ltd is at the forefront of this transformation. The Non-GMO Refined Glycerine 99.7 USP K H not only meets but exceeds current expectations, offering a product that is both high-quality and environmentally conscious.
