

Shen Zhen Long Hung Titanium Ltd. Launches Advanced Precision Metal Fabrication Services

Shenzhen, China — 09 Sep, 2025 — Shen Zhen Long Hung Titanium Ltd., a leading specialist in titanium, stainless steel, and alloy component manufacturing, today announces major enhancements to its [Precision Metal Fabrication](#) capabilities. These upgrades reinforce the company's position as a trusted partner for clients seeking high-accuracy custom metal parts across sectors such as aerospace, medical devices, electronics, automotive, and energy.

At its core, **Precision Metal Fabrication** demands tight tolerances, stringent quality control, and repeatability. Long Hung Titanium has invested in next-generation CNC machining centers, laser cutting systems, wire EDM, automated inspection tools, and high-end finishing equipment to elevate its production accuracy to new levels. Every part—whether a thin-walled enclosure, structural bracket, or titanium fastener—is now manufactured under a refined process control system that minimizes deviations, reduces waste, and ensures dependable performance.

PRECISION METAL FABRICATION

“We view [Precision Metal Fabrication](#) not just as a technical capability, but as a commitment to excellence,” said Mr. Lee Sheng, Senior Engineering Director at Long Hung. “By integrating advanced machines, skilled engineering, and real-time quality assurance, we can deliver

components that meet the most demanding customer specifications — from prototype to full-scale production.”

Long Hung Titanium’s enhanced services now include:

- **Custom Design & Rapid Prototyping** — collaborating with clients’ engineers to validate design, material selection, and manufacturability
- **Full-Scale Precision Production** — from small batches to mass production, with stable lead times and traceable workflows
- **Surface Finishing & Coating** — anodizing, polishing, plating, laser marking, and custom surface treatments
- **Inspection & Quality Assurance** — CMM, optical measurement, statistical process control (SPC), and 100% part-level inspection
- **Packaging & Logistics** — protective packaging, environmental shielding, and global shipping support

These elevated capabilities position Long Hung to offer end-to-end **Precision Metal Fabrication** services, making it easier for clients worldwide to outsource complex metal component manufacturing reliably and efficiently.

About Shen Zhen Long Hung Titanium Ltd.

[Shen Zhen Long Hung Titanium Ltd.](#) is a metal fabrication and component manufacturing enterprise headquartered in Shenzhen, China. Specializing in premium titanium, stainless steel, and alloy-based products, Long Hung serves multinational clients by offering custom machining, surface finishing, and precision metal fabrication services with stringent quality standards.
