

PROFESSIONAL
ELECTRICIANS
EDINBURGH

COMPANY PROFILE

Energize Electrical provides a comprehensive electrical service to all domestic, commercial and Edinburgh electricians who serve customers throughout the City of Edinburgh and the Lothians. We have extensive experience in residential and business electrical installations, both large and small. Our customers value our professionalism, work ethic and our highly competitive prices.

Electrical Services

Our electrical services are available to domestic and commercial customers in Edinburgh and the Lothians.

EMERGENCY ELECTRICIAN

Our emergency electrician is available to help when you have an electrical failure that needs fixed as soon as possible. No matter your electrical emergency, we'll always ensure that our work is fully quoted and agreed upon by you first, so you never have to worry about hidden fees.

Electrical Repairs

Our electricians are available for all electrical repairs from fixing flickering lights to broken sockets.

ELECTRICAL WIRING

Our NICEIC-approved electricians are available for all electrical wiring and rewiring jobs.

We work for private individuals or for construction companies who need an electrician for a particular job.

We can wire new buildings or extensions.

We can fully rewire your home, replacing all old wires.

ELECTRICAL TESTING

EICR

Electrical Installation Condition Report

An EICR is a thorough inspection of your property's electrical systems and installations. The purpose of the report is to determine the risks and safety of your home by assessing the efficiency of your electrics.

An EICR should be carried out regularly to help prevent electrical fires.

LIGHTING INSTALLATION

Indoor Lighting Installation

Is the lighting in your home in need of an upgrade? Are you looking to add the finishing touches to a particular room with a striking new light fixture? Or maybe you're finding yourself without enough light in the areas you need it most? Our electricians are experts at installing new lighting.

Garden Lighting Installation

We can install outdoor security lighting, decorative garden lighting, decking lights, path lighting and much more.

EV CHARGER INSTALLATION

Home EV Charger Installation

By far the easiest and most convenient way to charge an electric vehicle is when you are at home and your vehicle is not in use.

Energize Electrical is an accredited EV charger installer. We are approved installers for all the main EV charger brands eg Tesla, Andersen, Myenergi.

More Electrical Services

Along with the electrical services we have just highlighted, we also offer many more services. A selection of products that we can install include:

- Consumer Units
- Smoke Alarms
- Electric Showers
- Kitchen Appliances
- Immersion Heaters
- Home Security Lighting
